FOR IMMEDIATE RELEASE

San Pedro Creek Bridge Construction Update (State Route 1) Pacifica

San Mateo County- The California Department of Transportation (Caltrans) will begin final paving operations on U.S. State Route 1 (northbound/southbound) between Post Mile 40.6 (Ace Hardware) to Linda Mar Boulevard in Pacifica, starting Tuesday, September 8, and completed by Thursday, September 10, from 7:00 PM to 6:00 AM.

At the intersection of Linda Mar Boulevard and Route 1, asphalt grinding and paving will take place. This will affect signal timing for the entire week. Electrical work that controls the Route 1 and Linda Mar intersection will be worked on during the week of September 14, original signal timing will be restored by mid-week of September 14.

North and southbound temporary striping will be removed and replaced with permanent striping the following week, Monday September 14 and completed by Thursday, September 17, between the hours of 7:00 PM to 6:00 AM.

Final paving will restore lanes both north and south of the bridge back to the original configurations. The area between the bridge and Linda Mar Boulevard will have two lanes starting closer to the bridge.

Final construction for this project will be completed by October, 2015.

This work is part of the San Pedro Creek Bridge Replacement Project that started construction in May 2014. The project will install a longer and higher bridge over the creek to provide capacity for the 100-year flood event. In addition, a Class 1 multi-purpose path will be added along its eastern side.
